A NOTE FROM THE EXECUTIVE DIRECTOR

My Dear Friends,

What an honor and blessing it is to be serving the Lord in this capacity! Over the last two years I have had the privilege of watching the Lord grow this ministry in so many different ways. We have significantly improved our technology, become a medical facility, expanded our abstinence program, updated the outside of our building and are now attracting more attention than ever! As a result, we are enjoying an even greater impact in our community!

God is doing AMAZING work at First Choice and it is all because of you! Our partners, our volunteers, our staff and our friends – you have truly made a difference and I want to personally thank each of you!

Nothing gives me more happiness than to see the joy on a young woman's face when she brings her baby into the Center... a child that was once considered a mistake, is now the love of her life!

Never has our world needed hope more than it does now, and here at First Choice we are seeing the effects of hope each day - hope truly does change everything! Romans 15:13 says "May the God of hope fill you with all joy and peace in believing, that ye may abound in hope..." This is the life changing hope that we share with the women and families who come to us in need each year.

Thank you for allowing us to reach out with hope and be the hands and feet of Jesus in a very practical way. Thank you for enabling us to share the grace and love of Christ with those who may never step foot inside a church. Thank you for your prayers, your love and your support!

In His Service,

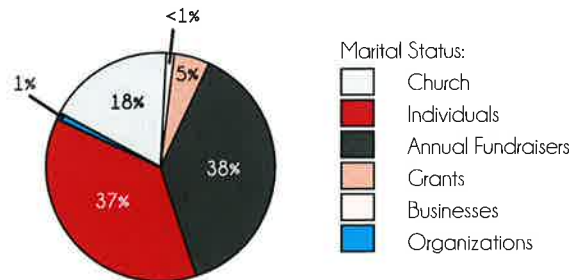

Lisa Miller, Chief Executive Officer

Eight abortion vulnerable clients chose life!

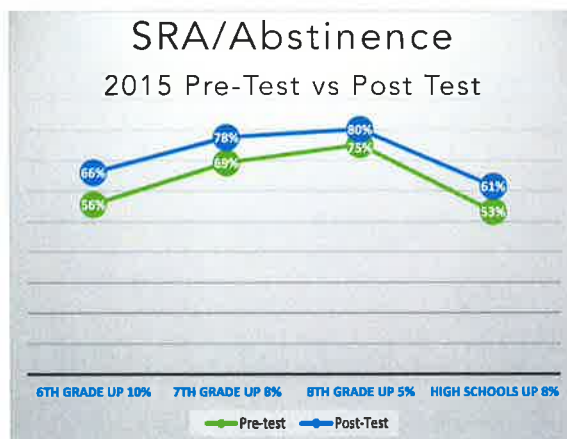

During the 2015 fall semester our Sexual Risk Avoidance Department presented the Creating Positive Relationships Program in 6 area school corporations to 10 different middle and high schools in Delaware County. We are also very excited to announce that CPR will be taught at Daleville School Corporation and Burriss Laboratory School this spring! These 6th-12th Grade students participate in a week long interactive program that teaches good decision making skills with a focus on the benefits of choosing abstinence until marriage.

After completing the Creating Positive Relationships Program, an average of 93% of students opted to choose abstinence over sexual activity.

After completing the Creating Positive Relationships Preprogram knowledge levels increased by an average of 8%.

First Choice for Women is very grateful to the Community Foundation of Muncie and Delaware County for providing a grant that helps finance this curriculum so that we may offer the program to schools and youth organizations completely free of charge.
